

## Research analyst

Employer: JWGW Group Limited

Industry: Financial services

Location: Central London

Full-time

Salary: £21k

About the role:

Do you want to be part of a rapidly growing small company, providing market leading intelligence and solutions to a broad range of financial services firms including some of the largest in the world?

JWGW have an exciting opportunity for a Research Analyst to join our dynamic team based in Central London. The successful candidate will be responsible for supporting the delivery of our research projects and solutions and supporting our clients and will report directly to the Head of Research. This role offers a fantastic opportunity to take on responsibility for solving problems as part of a small team, to develop skills and to build a career in financial services.

JWGW is an independent think-tank which provides intelligence to help the financial services industry implement regulatory change in a better, faster, cheaper and safer manner. Since 2006 we have utilised our unique, independent position in the market to achieve results through our innovative approach, collaborative model and award winning RegDelta platform. We are looking for a full-time member of staff to join our established research team.

The successful candidate will have:

- ▶ Strong qualitative and quantitative research skills
- ▶ Excellent analytical and creative writing skills
- ▶ Well-developed interpersonal skills
- ▶ A personable and confident presentational manner
- ▶ Strong organisational and time management skills
- ▶ Excellent written and spoken English.

In addition, the following skills are desirable:

- ▶ Familiarity with financial services and the G20 regulatory agenda
- ▶ Previous relevant experience in financial services
- ▶ Knowledge of other European languages.

The responsibilities of the successful candidate will include:

- ▶ Research. The ability to react quickly and efficiently to changes based on regulatory developments. Identifying, within the analyst's own area of focus, timelines, granular

research focus areas and marketable themes. Effective communication of information to their manager.

- ▶ Writing. Production of written articles or reports for both internal and external audiences. High quality, well written analysis, delivered in a timely manner and to a pre-assigned topic or theme. Initiative in setting individual agendas, including developing and maintaining relationships with editors of external publications, such as journals and magazines.
- ▶ Analysis. Some responsibility for the production of data to support research projects or for input into JWG's regulatory data management platform, RegDelta. Demonstrating creative methods of collecting data, effectiveness in assembly, organisational and summarisation of facts and findings and consistently getting to the right depth in data collection.
- ▶ Presentation. Ability to present research findings to JWG members in an interesting and coherent manner utilising the JWG formatting and style guidelines. Mastery of creative exhibits to display/support findings and conclusions.
